Contents

1.1 Getting to our Webpage

To first find our application head on over to https://agora-student-marketplace.herokuapp.com/. Here you will be greeted with our homepage which will look like the image below:

Once here you will be able to **view listings(1.2)**, however won't be able to buy or create any new listings as you will first need to **create an account(1.3)**. The reason for this is so that unauthorised users or non-students won't be able to use the features provided. If you have already created an account head over to the **sign-in(1.4)** page with the link in the navigation bar up top or with the following link. https://agora-student-marketplace.herokuapp.com/account/signin.

1.2 Viewing Individual Listings

When on the homepage in the image below you will see various rows of listings such as the one below: Go ahead and click on one of these to view the listing in more detail. Here in the top right-hand side of the listing page you will also see a box with a purchase or a register/sign-in option depending if you are currently logged in.

REGISTER NOW

the form looks like on the right. (Note that you do not need to upload a user image, however it usually helps with selling future listings down the line.)

After filling in the form press the "*register now*" button at the bottom of the page, this will save your account in our system. You will be prompted with a message saying, *"you have successfully created an account"*, and be redirected to the sign-in page. If you are not redirected you can find it here: https://agora-student-marketplace.herokuapp.com/account/signin.

1.4 Signing into an Existing Account

When presented with the sign-in page given on the left side below, enter the user email and password you chose when creating an account, your screen should now look similar as ours below on the right. After this hit the *"sign-in"* button at the bottom of the page. This would redirect you to the websites home screen if the information entered was correct, or prompt you with a message saying the email or password you provided was incorrect.

1.5 Profile Page Overview

For this next section we will assume you are currently logged in and sitting at the homepage of the website. If this is not the case, you can follow "**1.4 Signing into an existing account**" to get to the desired page. Next click the "profile" button in the top navigation bar to bring you to the webpage https://agora-student-marketplace.herokuapp.com/account/profile, shown below.

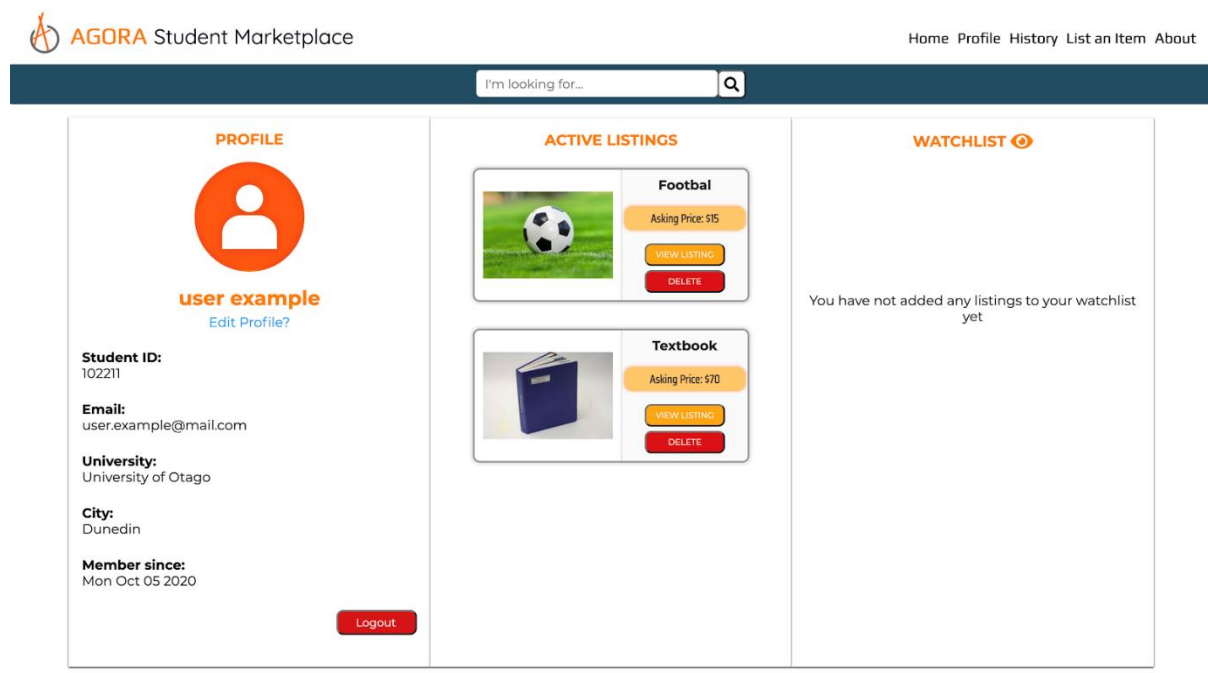

Here the webpage is split up into three parts: user profile, user listings, and watchlist. The user profile section shows your basic account information as well allows you to **edit profile(1.6)** and logout. To edit your profile, click on the *"edit profile"* button and head to section 1.6 of the documentation. To logout click on the "*logout"* button, this will give you a prompt on the screen saying, "Successfully logged out" and bring you back to the sign-in page. The middle section is for your active listings, to view one of these listings simply click on the desired one and you will be brought to the listings overview. Here you will also be able to delete a listing by clicking on the "delete" button within the listing's box. If you wish to update a listing, follow the instructions in **Edit Listing(1.8).**

Finally, on the right side of the page we have the users watchlist. This feature is currently undergoing maintenance and will not show any listings you have saved. However, will hopefully be implemented at a later date so feel free to check back for updates.

1.6 Edit Profile

In this section we will be showing how to edit your personal profile. Firstly, make sure you are logged in, if you are not you follow the instructions from **1.4 signing into an existing account.** Next head over to the profile tab following the link in the top nav bar. In the left-hand section you will notice an edit profile button underneath your name, (image shown right.)
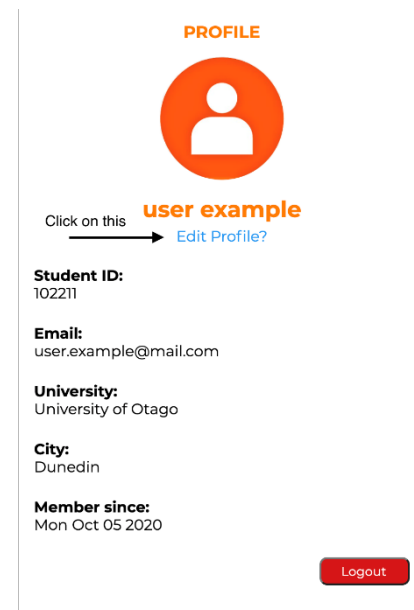

You will now be greeted with a form similar to the create account one, however the fields will already be holding the current information you provided before. To change any information, click on the desired field and type in the change you want. After doing this click update profile at the bottom, a prompt will show up on the screen to tell you it went successful and you will be logged out and taken back into the sign-in screen. To view your updated information simply log back in with your account information and go back to the profile page.

1.7 Create Listing

To Create Listing a user can click on **List an Item** on the navigation bar then the user will be taken to a form where they can **create** a listing. Follow this Link to Create Listing https://agora-student-marketplace.herokuapp.com/account/createlisting.

Another way of accessing the **Create Listing** page is through the user **Profile** page where it shows the option of **Create Listing** if no listing has been made. Page should look like:

You currently dont have any listings.
Click Create listing to get started!

Click here to access
Create Listing form

Also a user can access the profile to check ACTIVE LISTING by clicking on this Link: https://agora-student-marketplace.herokuapp.com/account/profile .

Once a user has successfully reached Create Listing page, they can follow these steps in order to create a listing for an item:

1. Click on the **Upload Image** button to upload a listing image.
2. On the listing field enter the product name in the **Listing Name** and enter the brand of the listing in the **Product Brand** field.
3. In the **Listing Description** the user can type any details or extra information they wish to add about their listing.
4. Then they can select a **Category** for their listing. For example, choose Books Category for textbook listing.
5. The user can also state the **Condition** of the listing if it is **New** or **Used** by clicking on the Condition arrow.
6. Lastly the user can enter a price for their listing in the **Price** field. And once all the fields are complete the user may proceed by clicking the create listing button.

1. before create listing

2. after create listing

1.8 Edit Listing

To Edit Listing the user can simply click on any Listing they have created. They will be taken to page which look like:

Then the user would click on **Update Listing** as shown in the image above. On the **Update Listing** page, the user is able to edit any information about their Listing such as:

1. Listing Image
2. Listing Name and Brand
3. Listing Description
4. Listing Category and Condition
5. Listing Price

Once a user completes updating their Listing, they finish by clicking on the **Update Listing** button at the bottom of the page and their Listing will be updated. See image below:

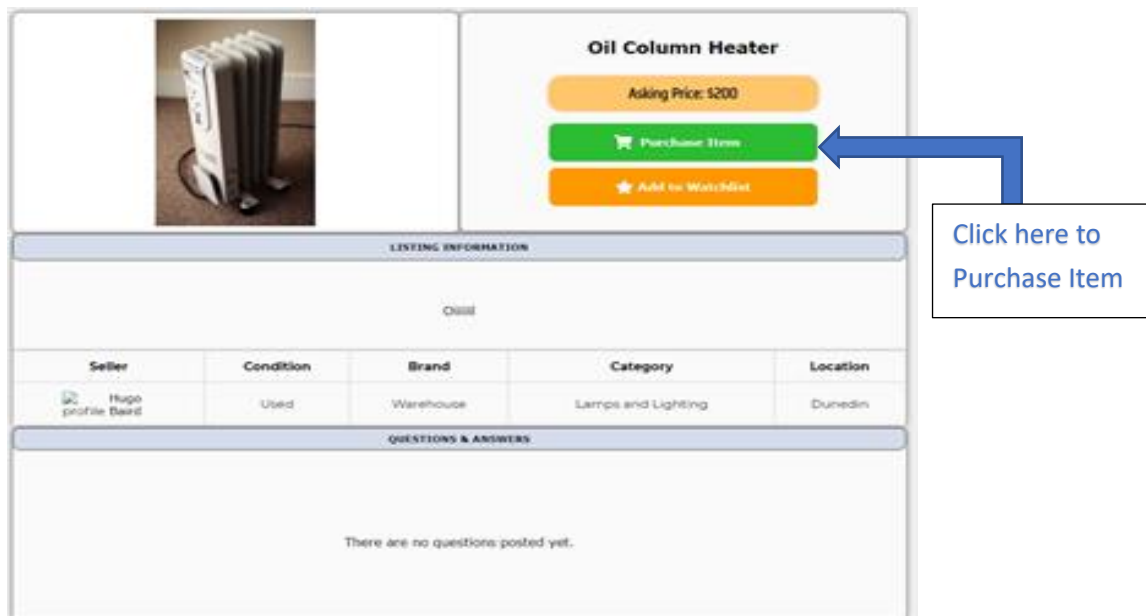

3. before update listing

4 after update listing

1.9 Purchase Item

A user on the home listing page can click on any image listing to purchase the item. After clicking on a Listing, the user will be transferred to a page that look like this:

Then the user may click on the **Purchase Item** button to purchase the Listing which then they will be transferred to the **Checkout** page.

2.0 Checkout

On the checkout page a user would need to fill **shipping** and **payment** fields with their details in order to successfully complete their purchase. The user must complete filling the following fields to proceed with purchasing the item:

Payment Details Section:

- Entering payment details.

- Enter the user full Name shown on the credit card.

- Then enter the credit card number shown on the front of the card

- Followed by filling the name bank that provides the user with the credit card.

- Enter the secret code CVV which can be found at the back of the card.

The user would need to enter their full name, also their email, their full address, and the city they live in, each to be entered in their specified fields as shown in image below. The user must also provide their post code with the region in their designated fields.

After completing filling all the fields the user wishes to continue with the purchase can click the **Proceed** button or click **Cancel** button to cancel the purchase and return to the home Listings page. When the purchase process is approved and fully completed the user will be transferred to a **Purchase Confirmation** page that shows details about their purchased listing.

2.1 Purchase Confirmation

The user on the purchase confirmation will have the option to view their trading history by clicking on the **History** button or to go to the main home page by clicking the **Home** button. See image below:

This page also will inform the user that a confirmation email was sent, and they can find more details about their purchase in the History tab which can directly be accessed from this Link: https://agora-student-marketplace.herokuapp.com/account/history.
